DETAILED ACTION

Response to Amendment

- 1. Receipt of applicant's amendments filed 1/31/03 and 3/31/03 is acknowledged.
- 2. The amendment to the abstract has not been entered as the amendment failed to include a marked up copy of the replacement abstract as required by 37 CFR 1.121. The previous objection to the abstract is maintained. Correction is required.

Priority

3. Applicant has not complied with one or more conditions for receiving the benefit of the earlier filing dates of application 09/716,573 and application 09/572,509 under 35 U.S.C. 120 as follows:

The later-filed application must be an application for a patent for an invention which is also disclosed in the prior application (the parent or original nonprovisional application or provisional application); the disclosure of the invention in the parent application and in the later-filed application must be sufficient to comply with the requirements of the first paragraph of 35 U.S.C. 112. See *Transco Products, Inc. v. Performance Contracting, Inc.*, 38 F.3d 551, 32 USPQ2d 1077 (Fed. Cir. 1994).

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 2 and 3 are rejected under 35 U.S.C. 102(a) as being anticipated by *Huang* (US # 6,050,810) (cited by applicant in IDS filed 12/3/01 (paper # 2))).

Huang discloses in Figures 1-4 a utility lighter substantially as described in applicant's claims 2 and 3 including a housing (10), a lighting rod (see Fig. 1), a fuel tank (11), a valve (38), a gas tube (41), an ignition unit (18), and a safety mechanism wherein the safety mechanism includes a trigger (20) capable of sliding towards the ignition unit, a locking lever (72, 73 and 731) having a surface at least a first and a second elevation (see Fig. 4 and multiple surfaces of with different elevations), and a safety button (60) capable of moving in a substantially parallel but opposite direction to the trigger. The safety button is manipulated by a user to open the valve to release fuel and simultaneously moves along the surface of the locking lever causing the locking lever to move out of interference with the trigger permitting activation of the ignition unit to ignite the fuel released from the valve (see col. 3, lines 4-19).

Double Patenting

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed.

Application/Control Number: 10/005,230

Art Unit: 3743

Cir. 1993); In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); In re Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

7. Claims 2 and 3 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,325,617 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because while claims 2 and 3 of this application (10/005,230) are broader in scope they are claiming the same invention as claim 1 of US # 6,325,617.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Application/Control Number: 10/005,230

Art Unit: 3743

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the 9. examiner should be directed to Examiner Josiah Cocks whose telephone number is (703) 305-0450. The examiner can normally be reached on weekdays from 7:30 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Henry Bennett, can be reached at (703) 308-0101. The fax phone numbers for this Group are (703) 308-7764 for regular communications and (703) 305-3463 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0861.
